STAKEHOLDER AND DATA ANALYST'S AGREEMENT

DATA PRIVACY POLICY

This project is about analyzing existing data and coming up with a solution that will help to solve the problems mentioned by the stakeholder(s) in the requirements specification. So the data which are required to complete the analytics are confiscated from the stakeholder.

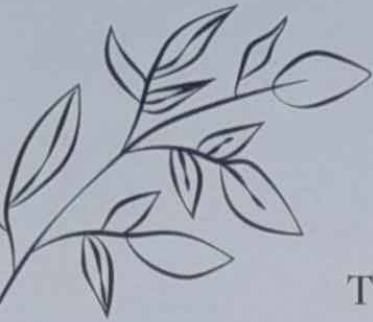

These data are kept securely and used only for the analytical purpose and some of the sample data are used for modeling the processes which are done through this project to the audience. Before that, those data will be shown to the stakeholder and only with their declaration and permission, those are published.

Stakeholder's details are specified in the project description for the evidence. If the stakeholder wants to carry out their project details without letting other people to know about the analytics, we respect their words, by that we whole work throughout this project.

The project can be done in the given time and if any immediate report, that can be shared to the stakeholder to make the problem solved in a short period. Project team members are thoroughly instructed about the project details and its scope.

The people who are involved in the analysis are instructed to respect the privacy and safety of the stakeholders who are sharing their details to us.

STAKEHOLDER AND DATA ANALYST'S AGREEMENT

TERMS AND CONDITIONS

The project is all about analytics. The stakeholder can be informed to share more data during the analytics to make accurate results. So at the earliest time, stakeholders have to bring that data to the analyst's team.

Stakeholders can contact the team anytime and the analyst's team should contact the stakeholder if necessary.

Our requirement specification team member(s) will reach out to the stakeholder's place by visiting directly to communicate and gather information efficiently.

Appointment time should be mentioned clearly.

If the analytics process takes more time than we planned, extra charges won't be charged to the stakeholder and the project should be done on the budget specified.

We people are aiming for the perfect solution and we also respect the time too. We always try to be the best in everything.
